

ARMENIANS REFUSE TO WORK WITH THE TURK

St. Catharines, Nov. 5.—About seventy-five Armenians walked out of the McKinnon Dash and Metal Company's factory, refusing to work with a Turk who is employed in the factory. They say they get reports of the terrible massacres and atrocities being perpetrated on the Armenians by the Turks.

"Thousands of our relatives are being cruelly tortured and put to death. In consequence we will not work alongside of a Turk," they say. During the Patriotic Fund campaign the Armenians contributed liberally while the Turk refused to give anything.
