

## HELD UP AT BORDER?

### 300 Men Said to Have Been Brought From the States.

Niagara Falls, Nov. 21.—A report circulated here and wired to several cities says that 300 Americans experienced in building munition plants have been brought over to be sent to Trenton, Ont., but were held up at this entry port by **immigration** officers who had not been notified that the contractors had arranged with the Canadian Government for their admission. The local officials are reticent, even denying the presence of any such considerable body of men, but report says that those stopped will be allowed to proceed on their way to Trenton this afternoon.
