

SPY VISITED NIAGARA

Hans Schwartz Bought Pictures of Power Plants

Special to The Daily News.

Niagara Falls, N.Y., March 9.—The publication of pictures of Hans Schwartz, who was arrested early this week in Hoboken, N.J., with Fritz Kolb, in connection with alleged bomb plots against the munitions plants providing shells for the Entente Allies, disclosed the fact that Schwartz was in Niagara Falls recently, and that while here he purchased many pictures of power plants both on this side of the border and also in Canada. He was here less than three weeks ago, and his picture was readily recognized by the clerks and proprietors of a bazaar in Falls street.
