

# SOCKS FOR SOLDIERS

## Ladies' Committee to Eke Out 2nd Contingent's Supply

A committee of ladies, headed by Mrs. Forbes Angus, yesterday communicated with the Divisional Headquarters, offering to furnish woollen socks for the men of the second contingent. Each man in the service is fitted out with two pairs of woollen socks, but it was felt that they would need more before their service ended, and the offer was gratefully accepted.

In addition to Belgian reservists, orders were yesterday received at headquarters that French and Montenegrin reservists would be given the hospitality of the Canadian Government in the annex of the High School Barracks until they were ready to leave for service. A number of pickets have also been recalled from service along the canals. They will be kept on service at the barracks, and sent out to Petawawa, Parent Station, and other camps where the alien enemies are interned, to act as guards.
