

## ARREST 'WOULD-BE' HARVESTERS!

Through the careful watch which is being kept on passengers bound for the western harvest fields by the authorities of the Alien Enemy Registration Bureau, four more Austrians who had not obtained permission to leave the city, were arrested on a west-bound train and brought back to Montreal, where they have been interned. The papers of the 580 harvesters on the train were examined by Inspector Rioux, and Constable Porteous, who had been detailed to take the train, and the four arrests resulted. Three of the men had been registered in Montreal, but the fourth had failed to report at the Bureau.
