

BULGARS CAN'T SERVE

Enemy Aliens Being Weeded Out of Canadian Regiments

It has been found that in most of the battalions from Montreal and other places there is a sprinkling of Bulgarians, generally running about four or five to a battalion. While these men want to fight for the Allies, and have sworn fealty to the King, they are technically enemy aliens, and will have to be weeded out of the ranks—generally much against their own desires.

Most of the Bulgarians in Montreal have now been registered with the registrar of alien enemies. None of them have been interned, and it is not expected that there will be the slightest trouble with any of them.
