

# **Interned Germans Attempted Escape.**

**Halifax, N.S., Feb. 21.—**On Friday night three of the German prisoners

at the citadel attempted to escape. They got into the moat and one of the three by means of a rope succeeded in getting out. The other two were unable to manage, how-

ever, and not wanting to go without them the first one gave himself up and told the guards about his two comrades still in the moat. All three were hastily returned.
