

**To intern Enemies**—Adjacent municipalities will be memorialized with a view to petitioning the Dominion government and Turkish subjects in Canada, to intern all German, Austrian and Turkish subjects in Canada, according to a resolution passed at last evening's meeting of the district council. This movement is prompted by the recent outbreaks in the Dominion, Australia, South Africa and elsewhere, which were occasioned by the crimes lately committed by the German government. The memorialists will also urge that interned prisoners be made to work and the value of such work be devoted to a fund for the disabled soldiers and the dependents of those killed on the field of battle.
