

FIND GERMAN IN RANKS.

Had Offered Military Secrets For Sale To Germany.

Vernon, B.C., Aug. 18.—A German who entered into the ranks of the 54th Regiment at Vancouver, by representing himself to be a Swiss reservist, anxious to fight on the side of the allies, has been arrested and will be made the subject of a court-martial.

It is said that the authorities have evidence of the most incriminating nature to submit against the man, which will show not merely that he is a German, under an assumed name and nationality, but that since his arrival at Vernon he has been collecting military information and offering it for sale to Germany through the medium of a neutral mail.
