

MINERS RESUME WORK

Trouble at Fernie and Michel Mines at an End.

FERNIE, B. C., Aug. 8.—Fairly rapid progress in settling the labor difficulty in this portion of District No. 13 was made yesterday.

More than 75 per cent. of the men employed on the morning shift at the local mines went to work, and 90 per cent. of the afternoon shift also resumed work.

Operations will be resumed at Michel this morning. This decision was reached at a meeting held yesterday afternoon, and was practically unanimous.
