

THOUSANDS TO COME

July and August will be Banner Months in the Mountains

On good authority it is given that there will be thousands in Banff and other mountain resorts during July and August.

Already there has been train loads of a few, but that is only a drop in the bucket to the bunch that will arrive here during the next two weeks. Over 7000 shriners will pass through Banff on their specials and will make a stop here to see the sulphur springs. They are on their way to the annual gathering at Seattle.

The annual excursions of the Old Ontarians, who usually visit Europe, will this year come to the west, enroute to the Pacific coast.

Numerous special trains from large U. S. centers will flow along for the next two months.

Calgary is making every effort to entertain as many as they can. The question will be left to the boards of trade and city council to decide in what way this will be done.
