

# MAY SEND ALIENS TO BANFF TO WORK AT MAKING ROADS

There will probably be between two and three hundred of the interned aliens from Brandon moved to the district near Banff to work at making roads, said General Sir William Otter who, passed through the city on his way east on Friday afternoon. There is no public work being done in Manitoba or Saskatchewan on which these men could be employed, he said, and there are already a number of the prisoners at work in the Banff district.

There are now 942 prisoners interned in Brandon, and the capacity of the Arena is almost taken up. Nearly every day one or two or more are brought in.
