

## DUMPED INTO CANADA.

### DISEASED FOREIGNERS FROM THE UNITED STATES.

**A Deplorable Condition of Affairs at Niagara Falls—Several Residents, Including a Prominent Merchant, Have Contracted Trachoma.**

(Special Despatch to The Globe.)

Niagara Falls, Sept. 26.—Dr. Elliott, medical inspector of the Department of the Interior, Ottawa, has been here investigating conditions resulting from the enforcement of the United States immigration laws. The rejection of hundreds of immigrants by the medical inspectors of the United States Immigration Office on account of their being afflicted with trachoma or other disease has resulted in these diseases becoming very prevalent in the foreign settlements in this city. Every day the United States officials turn back Italians or Hungarians who desire to enter their country and are found on examination to be afflicted with some disease. The rejected ones come back to this side of the river and settle down. Cases are known of foreign residents of Buffalo coming to this city to work and being refused readmission to the States when they wanted to go back home. The inspectors are always eager to let a diseased foreigner get out of the country, but they take care that none get in. When a foreigner wants to enter the States \$2 head tax is collected from him. He is then examined by the medical inspector. If he is rejected his \$2 is gone just the same—the doctor gets it as his fee. Several residents of this city, including a prominent merchant, have contracted trachoma by handling money after diseased foreigners. People here are very anxious that the Government should do something to relieve this dangerous condition. They object to the city being a dumping ground for diseased foreigners.

### VANCOUVER'S SOLDIER SONS.

**Tablet Unveiled to Three South Africa Heroes—Sir F. Borden Present.**

(Special Despatch to The Globe.)

Vancouver, B. C., Sept. 26.—At a drum-head service in which Sir Frederick Borden, Minister of Militia, took part, this city has just seen the unveiling of a tablet to the Vancouver heroes who laid down their lives in the Boer war. The three South African campaigners whose memory is thus honored were Private W. Jackson, Private W. F. Whitely and Trooper F. C. Mackintosh. Jackson and Whitely served in the Second Royal Canadian Regiment, and Mackintosh in the Strathcona Horse. All belonged to the 6th Regiment, Duke of Connaught's Own Rifles, of this city. Sir Frederick was especially moved by the service, for he lost his only son in South Africa. Jackson and Whitely were in the vanguard when Cronje was run to earth, while Mackintosh died of enteric fever at Bloemfontein.
