

The Undesirable Foreigner.

To the Editor of The Globe : As a Canadian, now residing in the United States, I was pleased to see in your front page of issue of 20th Inst. an article respecting the restriction of the undesirable foreigner.

The Government of the United States and the police departments of the larger cities have learned, too late, the result of unrestricted immigration, and it seems unfortunate that Canada should now attract the attention of these "scum and scourgings."

This is certainly Canada's growing time, but it will be a misfortune if she counts on this class of people to increase the census returns.

Trusting your article will not go unheeded, permit me to sign myself

Still a Canadian.

New York city, March 29.

Provincial Finances.

To the Editor of The Globe : Our Provincial Government expects this year an income of \$100,000 from its Gillies mining property. Now, I think, sir, that, as this is a valuable property, whose value will increase as the mines are developed, and as the income from this source was never calculated on before, the same should be set aside to reduce, and perhaps ultimately extinguish, our Provincial debt.
