

A PROBLEM FOR CANADA.

The Proper Standardization of the Immigrants.

A largely-attended meeting of the Brotherhood of Andrew and Phillip was held in Cooke's Church yesterday afternoon, when the men were addressed by Mr. John A. Paterson, K.C., on the "Moral Equivalent of War." Mr. Paterson declared that the moral attributes of a soldier should be applied to the moral development of foreign immigrants. He stated that not a more serious problem confronts the Canadian people to-day than the proper standardization of the foreigners, who are flocking into the country in such large numbers. "At no time in the history of the United States were the people confronted with such a task as besets Canadians," said he. "If we would improve their conditions and safeguard ours we should centre all our energies on their moral development."
