## First Lot of Austrians to Sail To-morrow

---

(Canadian Press Despatch.)

Montreal, July 30.—The German steamer *Willshad*, now in port from Rotterdam and Antwerp, will carry back to Europe the first batch of Austrians to sail from Montreal for the seat of war. When the vessel clears from this port Saturday or Sunday morning there will be at least two hundred of the local Austrians on board. Five thousand Austrians in Montreal are supposed to answer the call of their Sovereign, for they are in the first and second **reservist** divisions. Quite a number of the colony have become British subjects and are exempt from military service in the conflict.

Austrian labor agencies are crowded to-day. On the door of each agency is posted in a conspicuous place the order from the local Consul requiring the first reservists to leave for home at once.

No Contest for Czar's Cup This Year,  
Says Cablegram.

(Canadian Press Despatch.)

New York, July 30.—Because of the Austro-Servian war the automobile race for the Czar's Cup, which was to be held in Russia beginning on August 29, has been cancelled. The Automobile Club of America to-day announced the receipt of the following cable despatch from the Imperial Automobile Club of Russia:—

"Owing to international disturbances Imperial Automobile Club of Russia decides to countermand Czar's Cup for 1914."

Two Months' Strike for Minimum  
Wage of 40 Cents Falls.

(Canadian Press Despatch.)

London, Ont., July 30.—Some two hundred union carpenters of this city, who have been on strike for two months for a minimum wage of 40 cents an hour, to-day gave up the fight and have been told to go back to work if they care to. Although the minimum wage here is said to be the lowest in Canada, the bosses remained firm throughout, and also refused to recognize the union. Scores of non-union carpenters have been brought into the city, and many of the union men now find themselves out of work. It is figured that the strike has cost the union over \$10,000, apart from the loss of wages to the men.
