

## NO FURTHER LEAVE FOR MONTREAL POLICE

---

(Special Despatch to The Globe.)

Montreal, Aug. 5.—Police Chief Campeau stated that until further orders no leave of absence would be granted, except for those who wish to fight for Great Britain or her allies. Those now on leave are being recalled. The Chief, in an interview, explained that there are thousands of **foreigners** in Montreal whose sympathies are not with Britain, therefore it has been decided to keep close watch upon all public buildings and works. The police will not allow recruiting here for the German or Austrian armies. It was stated here tonight that Austro-Hungarians who are unable to leave Canada have been advised by their Consulate to stay quietly here, and not to take part in any demonstration.

Ships leaving Montreal harbor now have to obtain special clearance papers. It was said to-day that sailings to Britain after Friday would be quite regular, and that large grain shipments would also be made at once. Steamship men believe that arrangements have been made for convoys.
