

# IMMIGRATION OFFICERS MAKE ANOTHER CAPTURE

---

The list of successes attributable to the vigilance of the immigration officials is still on the increase. This morning's haul was another Austrian, who called himself Alois Olzinger. He said he had been only five months in the country and was, when arrested, on his way, so he stated, to Buffalo to find employment. Olzinger was appre-

hended on the lower bridge last night and, when searched was found to possess orders for mobilization from Montreal dated August 5th. It was also found that he had served in the Austrian Marines for four years and is at present on the landstrum.

There was no other step to take than to despatch Olzinger at once to the Armory as a war prisoner.
