

ALIEN ENEMIES

MAY BREAK STONE

Minister of Militia Requested to
Use Military Prisoners For
Road Improvement.

It is probable that aliens of enemy nationality, who are prisoners of war in Canada, will be set to work breaking stones or doing other work necessary for the building of good roads throughout the country. A deputation of the Ottawa Valley Motor Association, consisting of Messrs. McElhinney, Lemoine, Dion and Jarman, waited upon General Hughes this morning and suggested that these men should be used in building roads throughout the country.

No definite answer was given the deputation, but it was evident that the suggestion met with favor.
