SASKATOON, Nov. 12.—Although two more Germans have been arrested in Saskatoon on suspicion that they were acting in a way inimical to the interests of the British Empire, the Mounted Police are gradually collecting a stack of arms and ammunition which have been taken from Germans living in the vicinity. This morning a rifle and 150 rounds of ammunition were taken from a German who lives a short distance out in the country. Under instructions from the authorities at Ottawa, the police are seizing all war-like materials found in the possession of German subjects, whether they are under suspicion or not.
