

# 25,000 OF THE ENEMY TO CLEAR OUR LANDS

Provinces to Direct the Cleaning  
of Forests—Potash From  
the Wood.

Special to The Star. ....

Ottawa, Ont., Nov. 25.—Preparation for the interment of hostile aliens who are now the charge of the Government are being made in the various Provinces. Quebec will set apart areas of Crown lands and the aliens will clear them. Ontario will probably follow the same policy.

Dominion park lands will provide work for aliens in the west, where shanties will be constructed and the men set to work clearing underbrush and dead wood. It is suggested that this may be burned to make potash of which there is now a scarcity in the Dominion.

There are said to be upwards of 25,000 Germans and Austrians who fall under the regulations covering registration and interment.
