

PLANS FOR INTERMENT OF ALIENS MATURING

Montreal, Nov. 26 — The plans of the government for the internment of aliens are rapidly maturing, and are likely to be announced shortly. The province of Quebec, it is said, has agreed to the proposal of setting apart areas of its crown lands on which these foreigners would be put to work in clearing operations, and arrangements will be made as quickly as possible to move them to such locations.

The two classes by the order, are those who are a menace to the country and those who are out of work, but unable to go home, are public charges. The concentration camps in Quebec likely will be located in Abitibi on the high Gatineau.
