

ONE PROFESSOR HAS NOT YET REGISTERED

Mr. Tapper Sends Back His Exeat From Chi- cago

CURIOUS PREDICAMENT

German Says He Has a Divided Camp in His Family

The exeat granting Mr. Bonno Tapper, lately lecturer at the University of Toronto, permission to go to Chicago to take up a position in the university there was returned from that city to-day to the office of the Registrar of Aliens. He registered as an alien enemy at the City Hall on October 8th. He gives his home address as Essen Ruhr, Germany.

Professor Mueller registered a few days ago. The record of his inquiry states that though he had served in the Germany army for one year he was not now under any military obligation to Germany.

Professor Benzinger has not registered yet.

Two more Austrians were interned this morning, Steve Milane-witch and Paul Boksch. Both protested that they were not reservists, had no money and no work. Both have been here over three years, are laborers and single.

One alien in the office this morning expressed regret that though he had been in Canada for ten years he had not taken out naturalization papers. Another said that he had married a second time in Canada.

"I have German and Canadian children," he said, adding graphically "They fight."
