

'Aliens Crowd To Register Names

Lecturer at Trinity College Entered His Name Yesterday

To get into the office of the Registrar of alien enemies to-day one has to employ the methods of the football scrum, and, once in, one wonders if one can ever get out again except through the window, so great is the crowd of aliens round the door. They fill the ante-chamber and overflow on to the stairs—and they are anxious to get in.

"No, but something will happen soon if those 'Bobunks' don't behave themselves," said Captain Wanless glancing towards the door, when asked by The Daily News if anything of special interest had happened this morning.

Mr. Wilhem von Lubtow who registered at office yesterday is a lecturer at Trinity College. He has spent 6 1-2 years in the German army and 2 1-2 years in England where he graduated at Cambridge. He states his intention of remaining in Toronto, but has not yet taken out naturalization papers. He is 33 years of age.
