

# WILL INTERNE ALIENS

Situation at Fort William Acute—Employment Being Planned

OTTAWA, Jan. 15.—Gen. Sir Wm. Otter has found it necessary to go to Fort William and Port Arthur to deal with the alien enemy situation, which has become very serious. No less than 1,400 aliens have been registered in the twin cities, most of whom will be interned. The problem confronting the authorities is to provide work for them, more particularly as it is considered undesirable to have them compete with Canadian labor. A number of the aliens will probably be sent to clear the experimental farm in North Ontario. Others will be sent to a camp to be established in the west. General Otter will return to Ottawa, but later expects to make a trip through to the Pacific coast.
