

# ***Alien Round up Starts Tuesday***

---

## ***Soldiers Will be Used to En- force Registration After Fifteenth***

---

On Tuesday the soldiers will be used to round up alien enemies who have failed to report, for Tuesday will be the 15th of the month and the order published is that all must report on or before February 15th, under penalty of interment. The nearness of the date crowded the office of the Registrar this morning as it has not been crowded since the early days of registration. The Gallians who reported to-day were of noticeably higher standard of intelligence than those who registered earlier. A number of Syrians were among the crowd, mostly prosperous looking small tradesmen, able to speak English far better than the Poles.
