## Rudolph Saenger Loses Suit For Money From Com- pany

---

Owing to the fact that Rudolph Saenger, a German Jew, cannot prove that his residence in the city was for any other purpose than to realize upon his assets and take the money out of the Province, and is unable to prove that he is not an alien enemy, Mr. Justice Sutherland refused him a court order for \$3,100, alleged to be his and at present in the possession of Maurice Teller. Teller, the defendant in the action, was manager of the Novelty Import Co. and Saenger, and Emanuel J. Myers, who is making application along with Saenger, were directors in the company. Saenger pleaded that he thought he had lost his German citizenship as he had lived in France for some years and last month he

obtained a permit from the Registrar of Aliens in Toronto.

However, Saenger has in no way contradicted the statement that he was in partnership in Lyons, France, with a man named Rentschler, who was taken into custody at the outbreak of war and that he, Saenger, escaped. Teller has registered himself as caretaker of the business in trust, and if the plaintiffs are not sure of the safety of their money, an order may be made to pay it into court until its disposition.
