

VICTORIA, B.C., DECIDES

To Call Upon Borden to Intern All Alien Enemies

Victoria, B. C., May 14.—Citizens of Victoria last night held a meeting, when it was decided to call on Premier Borden to intern all alien enemies in this city and district without delay. The proposal is that they should be sent to Vernon, where the men will be employed this summer on the construction of a highway from Okanagan Lake to Arrow Lake.

The meeting also nominated an executive committee of twelve citizens to deal with important matters on the alien question as they may arise. It was also agreed that in consequence of the rumors affecting the loyalty of some naturalized citizens, it is desirable that the proper authorities should hold an investigation in order that public excitement may be allayed and confidence restored.
