

# MORE THAN 800 IN BRANDON CAMP

---

Today the population of the intern camp at Brandon is more than 800. Unnaturalized Germans, Austrians and Turks make up this total, together with naturalized sympathizers of enemies of the allies who were foolish enough to express their opinions.

Six Austrians were sent to the camp from Winnipeg this afternoon, and there were seven yesterday. They were all destitute, being unable to get work on account of their nationality. Those interned will be held until the war is over.
