

IS DEPARTMENT ASLEEP

It is a fortnight since the outburst of popular indignation in Victoria led to scenes of violence, and might easily have led to bloodshed. It is more than a week since a representative meeting of citizens forwarded resolutions to Ottawa asking for the internment of "alien enemies," and an investigation into the conduct of disloyal Canadian citizens of alien birth. Up to this time no action has been taken by the department of militia, which is responsible in the matter, nor has anything more than a formal acknowledgement of the resolution forwarded been made.—Port Coquitlam Review.
