

# INTERNES SHOT

---

Brandon, June 7. — The eighteen-year-old Austrian, Andre Grapke, who was shot while attempting to get away from the internment camp on Saturday night, was still alive this morning, but his condition is very grave. The other man is in the hospital. Butyrro, also an Austrian, will be out in a few days. He has only had bruises on the head and back.

The other 13 held in custody will be before Colonel Clark at noon, but the result of the inquiry may be kept secret for some time. One man who got away has not yet been recaptured.
