

# AMMUNITION FOUND IN ALIENS' HOMES

---

Startling Discovery Made by  
North Vancouver Police in  
Round-Up of Germans  
and Austrians.

NORTH VANCOUVER, June 11.—As a result of an active campaign by the local police this week four alien enemies—Germans and Austrians—have been detained and will be sent to the detention camp in Vernon shortly.

Very suspicious circumstances surround two of the cases in the district of North Vancouver. In one instance the police after a search of the premises found a quantity of ammunition and a revolver and rifle hidden away in a partition. At another place ammunition and guns were discovered stowed away underneath the roof. The city police apprehended one German—a man by the name of Koch, a toy manufacturer—of Twenty-first street, around whom lay suspicion that he was unfriendly to the cause of the allies.
