

# INTERNET CAMP FORMED

## Superintendent Clarke has Received His In- structions

Supt. Clarke and his secretary were in Calgary towards the end of last week and conferred with Col. Cruickshank at the Sarcee camp. As a preliminary, it has been arranged to move anything up to 200 men to be placed on a suitable site on the auto road between Banff and Castle. This will necessitate a guard of approximately sixty men, giving one guard to ten prisoners eight hours a day. The Superintendent was empowered to enroll as many suitable men as were available in the Park for this work, primarily, but under the usual Canadian militia service conditions.

Enlistment began on Tuesday morning and fifty-four men from all over the Park were enrolled after being medically examined by Drs. R. H. Brett and G. M. Atkin.

There is also a prospect of this camp being greatly enlarged shortly, possibly to 400 men, but no details are yet available.

Over a week ago and again this week a considerable number of local Austrians were interned voluntarily and were taken to Calgary and thence to Lethbridge by the military authorities.

These men were without means of support and were unable to find employment while their country is in a state of war with the British Empire.

The military authorities are arranging the question of supplies for this camp, while the Parks Department is looking after housing and tools. Banff people are expected to benefit very much, financially, by the arrangement.

Seven men were accepted from Canmore on Wednesday.
