

# **PARTY OF FOREIGNERS SEEN GOING NORTH**

---

## **Military Authorities Know No thing of Body of Men Seen Near Forrest**

---

A report that a party of about a hundred foreigners has been seen going north near Forrest was received in the city Monday morning. Farmers who questioned the men were told they were going to work on the Grand Trunk.

When inquiries were made at the Winter Fair Building Captain Coleman said that these men had nothing to do with the interned aliens and that no reports of a body of men tramping through the country had been received.

Occasionally, he remarked, a man who had shown good conduct and who was sure of steady work for a period of a year or more with a farmer was allowed to go but all such permission was sent through Ottawa. There had not been more than a dozen such releases made and these would not account for the number of men as reported.
