

TO PROTECT ALIENS FROM POSSIBLE FIRE

They Have to be Drilled to March Out in Sections of Fours

In case of fire the 900 interned aliens at the winter fair building can be formed up in sections of fours in two minutes and got out of the building in short order, according to tests made by their guard.

To extinguish a fire before any damage could be done a fire picket has been organized among the members of the 99th battalion and drills are held every day. Many of the men are experienced firemen, one having held a position as fire chief for nine years.
