

Many Aliens for Farm Work. —
About 2,600 aliens will leave Winnipeg to help reap the harvest of the prairie provinces. From the early hours of yesterday morning until late into the evening, the sidewalk in front of the registration office on Colony street was lined with foreigners awaiting their turn to interview the officers regarding the prospect of their finding work. To date 14,870 aliens have been registered in Winnipeg. The majority are of Austrian birth, and are in almost every respect quite orderly and show no signs of animosity.
