

Two British Scientists Awarded Nobel Prize

(Canadian Press Despatch.)

London, Nov. 14.—According to a Reuter despatch from Stockholm two of the Nobel prizes for 1915 will be awarded as follows:

Chemistry—Dr. Richard Willstaetter of the University of Berlin.

Physics—Divided between Professor William Henry Bragg of the University of Leeds, and his son, W. L. Bragg of Cambridge University, for research in the structure of crystals by use of the Roentgen rays.

TO COMMAND FT. HENRY CAMP.

Kingston, Nov. 14.—(Special.)—Captain P. G. C. Campbell, 14th Regiment, succeeds to the command of Fort Henry Internment Camp. Lieut.-Col. Fee, Lindsay retiring to take command of the 103rd Battalion to be organized for overseas.
