

## WANTS NAME CHANGED

To the editor of the Daily Star:

Will you kindly allow me space in your Daily paper. I was reading the yearly report of the city school and noticed the name "kindergarten." Now is it not time words and names of that kind were cut out in public schools and the plain English name used such as infant's class or infant's school? We don't want our babies to start their education in a class called under a ~~German name~~ word ~~which~~ ~~some~~ ~~lost~~ their fathers are fighting and battling for overseas service. For the benefit of the next generation use plain English words and meanings. From a Daily Star reader.
