

## NO MORE ALIENS IN MAKING OF MUNITIONS

---

Ottawa, April 29.— The Canada Gazette contains a British Order-in-Council prohibiting the employment of aliens on munitions work except under permit from the Minister of Munitions. No one must retain the services of aliens in such work. Register lists of aliens employed by their employers are required to be furnished previous to the issue of the Order-in-Council to the British Minister of Munitions, and report his intention on leaving work.
