

# ENEMY ALIEN MARINERS STRICTLY BARRED OUT

## Proof of Neutrality Must Be Established Before Landing Permitted

Ottawa, Sept. 6.—An Order-in-Council has been issued tightening the restriction against the landing at Canadian ports of any mariner who might be of enemy nationality. It is provided that any alien who is an officer or member of a crew of a vessel arriving at any of Canada's ocean ports must not be permitted to land until he has satisfactorily established that he is not of enemy nationality. Proof of his neutrality must be presented to Government officers by the production of a passport or other document establishing his nationality and identity, and attached to the passport or document there must be a photograph of the alien to whom it relates. The port officials are given authority to permit the landing of any alien for temporary purposes. United States officers or members of a crew of a United States fishing vessel are exempted from these special regulations.
