HAMILTON OPPOSITION TO HYDRO-RADIALS

BOARD 95 TRADE MEETING TAKUS STRONG STAND--THE PATRIOTIC CAMPAIGN

(Special Destatch to The Globe) Hamilton, Dec. 18.—At a special meeting of the Board of Trade to-night to further consider the Hydro-radial by-law, all the speakers, with the exception of Willoughby Ellis, a member of the Hamilton Hydro

the exception of Willoughby Ellis, a member of the Hamilton Hydro Board, condemned the proposition. F. G. H. Pattison strongly opposed the by-law. He said that "if municipali-ties voted for the by-law they were slaves of the Hydro-electric Commis-sion, which, at the present time, is Sir Adam Reck." Resolutions offered by A. C. Gar-den, seconded by G. C. Coppley, pass-ed with only five dissenting votes. They set forth that the advantages of motor and vehicle traffic greatly exceed the benefits to be derived from the planned electric road; that the city should not be committed to an agreement whereby the consent of the Commission would be necessary in securing additional transportation facilities by the municipality; that the expenditure called for is out of pro-portion to the beachts which will be derived, and that the hoard would recommend withholding favorable consideration of the scheme until peace is assured. recommend wit consideration of peace is assured.

Patriotic Campaign.

Patriotic Campaign. The local committee of the l'atrio-tic Fund met this afterneon and de-cided to hold a campaient in January. Last year the committee ser out to raise \$400,000, and secured subscrip-tions amounting to \$532,000. This year \$500,000 was the mark set. The Fire, Police and Jail Committee wound up its business for the year this evening, when the Chairman, Ald T. M. Wright, complimented the members upon the fact that there was a surplus of \$6,500. A. C. Cameron and C. Maddox were appointed fire-men. An honor rell containing the names of firemen who enlist will be placed in the Central Station. Gov-ernor Ogivie of the Jail reported that owing to a shortage of gas he is un-able to cook meals for the prisoners. The company's defence is that the burners are faulty. The matter will be investigated. The city will carry \$2,000 fire and accident insurance on the ambulance.

Interpreting Temperance Act,

Interpreting Temperance Act. Magistrate Jelfs to-day gave a writ-ten judgment in two liquor cases that were before him recently. In the case of the King V. Tystko he with-held conviction, saying, while accused may be technically guilty of a breach of the act, he does not think the act means to discriminate between the occupants of a suite of rooms in an ordinary dwelling and those in an apartment block, persons in the latter being permitted to have liquor in their premises. The other case con-cerned three men, foreurners, who occupied rooms in a one-story coltage in which were other persons, and the Magistrate held that the defendants; could not be considered a "family." separated properly from the other occupants, and found them guilty of violating the act. John Surget, who wanted to enlist for military service, and who repre-sented hinself as a Russian, is now under arrest charged with being an **enemy alien**. He is said to be an Austrian.

Austrian. A citizen who will not allow his name to be made public has given \$1,000 to the Parks Board for the purpose of making a paddling pool in one of the city parks next summer. The total for the Savea-Sailor fund was to-day reported to be \$22,-000.

¹000, Rev. E. J. Etherington, rector of St. Thomas Church, received word yesterday that his mother had died yesterday in Kingston.
