

ALIENS ON WELAND CANAL ESCAPED INTO THE STATES

By Canadian Press.

Niagara Falls, Ont., Dec. 28.—It is believed that quite a number who were brought from internment camps to work on the Welland ship canal have managed to cross the bridges into the United States. Yesterday two suspects were arrested coming back to Canada, who were found not to own parole cards.

As there was suspicion that the men had been collecting money from compatriots in Canada and going over the river and sending the money to Austria, the military authorities have interned the pair and sent them to Fort Henry.
