

# SECOND FIRE AT PETAWAWA CAMP

Engineers' Camp Burned With  
Heavy Loss—Headquarters Bldg.  
Was Burned Recently

Word has been received that the Engineers' Camp at Petawawa has been destroyed by fire and many valuable maps and drawings lost in the flames.

This is the second fire reported within ten days at Petawawa Camp. Two days before Christmas the headquarters building was also destroyed by fire which started under somewhat mysterious circumstances.

The outbreak of two conflagrations of unknown origin within such a short time has caused a certain amount of anxiety in militia circles here and some investigation will likely be made.
