

Veterans Take to the Land.

The **Kapuskasing** colonization scheme which has been devised by the Provincial Government for the settlement by Great War Veterans in Northern Ontario, has now reached such a condition that plans for a townsite are now being made. In addition to this a \$2,000,000 pulp mill is also proposed. Forty farms conducted by war veterans are in proximity to the proposed townsite and many others are also within easy access. So popular has the settlers' life become in the minds of the returned men that applications are arriving continuously for grants in the vicinity.
