

# ALIEN MINERS ON STRIKE

---

Seventy Per Cent. of Striking Calgary Miners Aliens; 40 Per Cent. of These Alien Enemies.

Calgary, Feb. 4.—Two thousand coal miners in the Drumheller field will cease to mine coal to-day, and will agitate for a union shop. The latest trouble started on Saturday, when 175 miners at the Moody mine walked out because the operators refused to run a closed shop. It is said that this strike occurred at the instigation of union miners in other parts of the field.

Of the 2,000 miners, 70 per cent. are aliens, of whom 40 per cent. are alien enemies, the balance being Canadians.
