

# KEEP THE FRANCHISE FROM ALIENS FOREVER

---

The western senators who believe so strongly that the western alien vote is a menace to the country are not discouraged, although their amendment insisting on an educational test in the Women's Franchise bill has been defeated. Mr. George H. Bradbury has prepared a bill which he will introduce this afternoon disfranchising for all time all aliens who had their votes taken from them under the War Times Election Act, except those who came to Canada before they were twelve years of age.

The bill is aimed to effect men and women alike. Senator Bradbury claims that aliens born and educated in Germany and Austria have shown that their sympathies are with the enemies of the Empire and that it would be dangerous to the national welfare of the country to give them the vote.
