

# WOULD BAR ALL ALIENS

---

**Board of Education Hears Suggestions to Deprive Foreigners From Educational Benefits.**

Aliens may be barred from the Public school night classes as well as those of the collegiates. The School Management Committee heard Principal, E. W. Hagarty, of Harbor Collegiate, explain yesterday afternoon why Principal Jeffries, of Jarvis, and he had suggested some restriction on the use of night classes by foreigners, and then they appointed a sub-committee to go into the matter with Senior Principal G. A. Smith and Chief Inspector R. H. Cowley.

This indicates that whatever action is taken may be made to apply to Public schools also.

Mr. Hagarty said many young fellows of 21 and 25 years of age come to the night schools seeking free education.
