

# Majority of Aliens More Than 16 Years Of Age Registered

---

"We took no chances when rounding up alien enemies and every man who looked anything like 18 years of age was registered, despite his protests," was the official statement made today at the office of the registrar of alien enemies.

This reply was given to a question as to what difference the new order from Ottawa would make, an order-in-council having been passed Friday night providing for the registration of all aliens more than 16 years of age.

The total alien enemy registration for the Winnipeg district now is more than 23,000, it is reported, and the number is being swelled daily owing to many aliens coming from their haunts in the wilds to work in the harvest fields.
