After outlining the circumstances which led up to the number of sittings held and the witnesses called, the report then deals specifically with the attack on the White City Cafe. The report continues:

"At this time the police had only 73 men on the streets, throughout the whole of the city, which contains a territory of 32 square miles and 530 miles of streets, and the first intimation that they had of any riot being contemplated was about a quarter to 6 p.m. The place was attacked at 6 or 6.15 p.m. and it was all over at a quarter to seven. The riots ceased at that time, and no further rioting took place until 10 p.m., when the White Star was wrecked, and then the Marathon about 11 p.m. and then in close succession the Colonial, Vendome, Palace, New London, Alexandria and Sunnyside Cafe."

Sergt Snyder comes in for considerable commendation as a result of his action at the Colonial Cafe, where he was "hit in the eye and had his face disfigured, losing his helmet for ten minutes." Both he and Inspector Tripp "deserve credit" for their action in preventing looting at this place. The inaction of Inspector Mulnall, during the attack on the Sunnyside Cafe, is severely scored. The report reads:

"At this point, while there were, a number of soldiers inside of the restaurant, breaking and smashing things and looting it, there was a number of police, at least 25, outside, sufficient to have prevented this outrage, but instead of doing so, they were totaly inactive, and although it was suggested to Inspector Mulhall beyone of their own number that they should act, nothing was done; the men apparently waiting for orders from their officers, which never came. Inspector Mulhall, being asked why he did not interfere, stated that it was dangerous.

"As compared with this, the action of Acting Detective Stewart shows to great advantage. Shortly thereafter the crowd dispersed.

"In connection with this raid on the Sunnyside Cafe, the evidence shows that rumors were received at No. 6 Station as early as half-past seven on the 2nd of August that there was a riot going on. At ten minutes to eleven a report from the operator was received to hold men going off duty in reserve, and this report was transmitted to Inspector Verney at his house, three miles distant, at 1.35 in the morning. The inspector stated that at twenty minutes to 2 a.m. Patrol Sergt. Egan called him up, stating that returned soldiers had run amuck down town, and had sacked some Greek cafes, and that they had just gone west, passingt he station in autos, with the police in pursuit. Who Struck Col. Hunter?

Dealing with the case of Lieut.Col. Hunter, the report reads:
"All attempts at ascertaining who
struck Col. Hunter were met by evidence to show that he was not
struck by any policeman who admitted doing so. Previous to his being first struck, there were stones
