

AUSTRIANS GOING HOME.

Made Money During War and Will
Spend it in Austria.

Ottawa, Nov. 22.—A movement back to the fatherland of Austrian alien enemies is indicated in advices which have come to official circles here. The Germans in the country show no such intention, but inquiries as to permits to leave, etc., go to show that many Austrians are preparing to pack up. Most of those engaged in war industries or mines, and have benefited by the high wages, have considerable ready cash.
